I would like to learn more about volunteer opportunities at Santa Maria Urban Ministry _____

The *Friends of Santa Maria* support our ministry in four ways:

- being ambassadors of Santa Maria's mission and ministry
- visiting the Mission when possible, meeting the volunteers and those we serve,, sharing weekly Eucharist with us, and volunteering on an occasional or regular basis
- encouraging and promoting economic and social justice, communication,, and harmony between diverse cultures and communities
- supporting the Mission financially so that hopes and dreams can be realized while families and individuals become economically and socially self-sufficient.

Friends of Santa Maria Urban Ministry of San Jose

You are invited to become part of Friends of Santa Maria, a caring community providing support and encouragement to local families and individuals in difficult economic circumstances. Through the programs and activities offered at Santa Maria Urban Ministry, Friends of Santa Maria give both children and adults the opportunity to gain the skills necessary for economic and social self-sufficiency and independence, as well as hope for a brighter future

At Santa Maria Urban Ministry we:

- welcome all who are in need
- provide programs in safe surroundings that offer opportunities for new life, growth, and positive transformation
- are generous with the resources that have been entrusted to our stewardship, recognizing that they are to be shared with God's people as we become aware of their needs
- share the road with our clients, as companions on the way, with our skills and abilities, our time and willingness to listen
- make decisions on the basis of what the most "life giving" response would be for our clients, recognizing that every day they face "deathdealing" situations - injustice, violence, abuse, hunger, exploitation and discrimination

*These are the principles and beliefs that form the foundation for the work we do. These beliefs give life to our ministry as decisions are made, programs are developed and implemented, and those in need are served. Through their support, **Friends of Santa Maria**, make this healing and life transforming ministry possible.*
